

## Homewatch Bulletin

Now that Summer is here, you will no doubt be making much greater use of your back garden. But while you're outside enjoying the sunshine, don't forget to lock your front door and windows.

You may also have some valuable garden tools; reduce the risk of burglary by keeping them locked away when not in use. Many people forget to secure their garden, shed or garage. Most burglary is opportunistic and if a burglar spots a chance to steal something and get away easily with it – they will!

Please contact me if you want to borrow a pen to mark your possessions in the event of theft. Police recommend using your post-code plus your house number to identify them uniquely.
